# ULVIK - CAST IRON BIOETHANOL FIREPLACE

BIO-20-901

Ulvik is a freestanding bioethanol fireplace made of cast iron from ScandiFlames, inspired by traditional Scandinavian wood stoves featuring elegant iron carvings. The burner has a capacity of 1.5 liters, providing approximately 5 hours of burn time per refill, and it comes with adjustable flames that output up to 2.1 kW of heat. The decorative top with a handle can be removed for a more streamlined appearance, and a small cooking plate will be available, allowing you to heat a pot of tea or similar items, adding extra functionality. The fireplace requires no chimney or electrical connection, making installation easy and flexible.
