Multicolor and different brightness

The Xaralyn Fogo Forest ambiance fireplace offers a realistic and stylish fire experience with adjustable LED flame colours, brightness settings, and mood lighting. Flame settings with top and bottom lighting and mirrored reflection create a realistic 3D fire effect. Available with or without heat (no gas, smoke, soot, or chimney required).

Easy control at your fingertips

The included remote control makes operating the Xaralyn Fogo forest simple and convenient. With multiple buttons for the flame colours, brightness levels, lighting effects, and heat settings, you can easily adjust every detail from the Fogo Forest fireplace.

Mirrored glass

This special design detail adds extra atmosphere and luxury, turning the fireplace into a true centerpiece in any cinewall or TV feature wall.

The mirrored glass adds extra depth to the flame effect and reduces reflections, making the fire look even more realistic. This gives you a clear and elegant view of the flames from every angle.

Adjustable heat for every season

The Fogo forest fireplace offers flexible heat settings to suit any moment. The 0W mode provides a purely visual flame effect without heat, perfect for year-round ambience.

The 750W setting delivers gentle, energy-efficient warmth for a comfortable atmosphere. For maximum heat output, the 1500W mode quickly heats the room, combining powerful performance with cosy comfort.

Installation

There is no single way to install the Xaralyn Fogo Forest built-in fireplace... only the way that suits your interior best. Designed for complete flexibility, it fits perfectly into a cinewall, TV feature wall, or custom-built installation.

Available as a 1-sided, 2-sided, or 3-sided built-in fireplace, the Fogo Forest gives you the freedom to create a unique focal point from every angle. Whether combined with a 55-inch or 65-inch TV, its balanced proportions and elegant design create a seamless and luxurious finish.

With realistic flame effects, optional heat, and easy installation without gas, smoke, soot, or a chimney, the Fogo Forest transforms any living space into a stylish centerpiece.

3 Sizes

The Xaralyn Fogo Forest is a stylish ambiance fireplace that combines realistic flames with modern design. With adjustable colours, lighting effects, and a premium finish, it creates a warm and luxurious atmosphere in any interior.

Fogo forest

Dimensions:

- A: 535 mm
- B: 1240/1524/1650
- C: 330 mm
- D: 50 mm
- E: 50 mm
- F: 15 mm

1240 mm

Custom installation

This custom 124 cm Fogo built-in fireplace is designed to integrate seamlessly into a modern cinewall or TV wall. It offers a realistic flame effect, adding warmth and a refined visual focal point without compromising the clean, contemporary design.

1524 mm

55-inch version

The 55-inch Fogo Forest is perfect for more compact cinewalls or TV feature walls. It offers the same realistic flame effect and elegant design, making it ideal for smaller living spaces without compromising on atmosphere or style.

1650 mm

65-inch version

The 65-inch Fogo Forest is the most popular size, designed to perfectly balance with standard TV installations. It creates a strong visual centerpiece while blending seamlessly into modern cinewalls and entertainment units.
